

## GINGER GIRL

*words & music by Sven-Erik Seaholm*

Ginger girl

You know that I love you

It's something that I always do...mmm...

My, my, Gaily girl

You know that I love you

It's just something that I do...mmm...

I remember when I saw you on the wall

I never knew how far a man could fall

But I fell for my ginger girl

You know that I love you

It's something that I always do...mmm...

My, my, Gaily girl

You know that I love you

It's just something that I do...mmm...

I remember when I saw you at Java Joe's

I said, "Hey Joe, who's that?"

He said, "Brother...heaven knows"

That was my ginger girl

You know that I love you

It's something that I always do...mmm...

My, my, Gaily girl

You know that I love you

It's just something that I do...mmm...

Yeah, it's something that I do

Just something that I do...mmm...

My ginger girl
