

## Sunshine

*words & music by Sven-Erik Seaholm*

Sunshine  
Is it a bad sign?  
Something's moving inside me  
Should I put a light into the dark?

You raise your eyes up to the sky  
There's so much more to do besides  
Come and stand up off your knees  
There ain't no saints in the balcony  
If love's forever, there's no end  
But could we ever break or bend?  
What if this is just a lie we let ourselves pretend?

Sunshine  
Is it a bad sign?  
Something's moving inside me  
Should I put a light into the dark?  
Sunshine  
It's just about time  
To see what's beyond the stars  
Sunshine show some light for me

Illuminate what lies below  
You can't reveal what you don't know  
Come on, stand up on your feet  
Face each tidal wave we meet  
Let your love lift upward from a solitary seed

Sunshine  
Is it a bad sign  
Something's moving inside me  
Should I put a light into the dark  
Sunshine  
It's just about time  
To see what's beyond the stars

Sunshine show some light for me  
Sunshine show some light for me
